

Pedestrian & Bicycle Quarterly Fatal Crash Analysis

January 2022 – March 2022

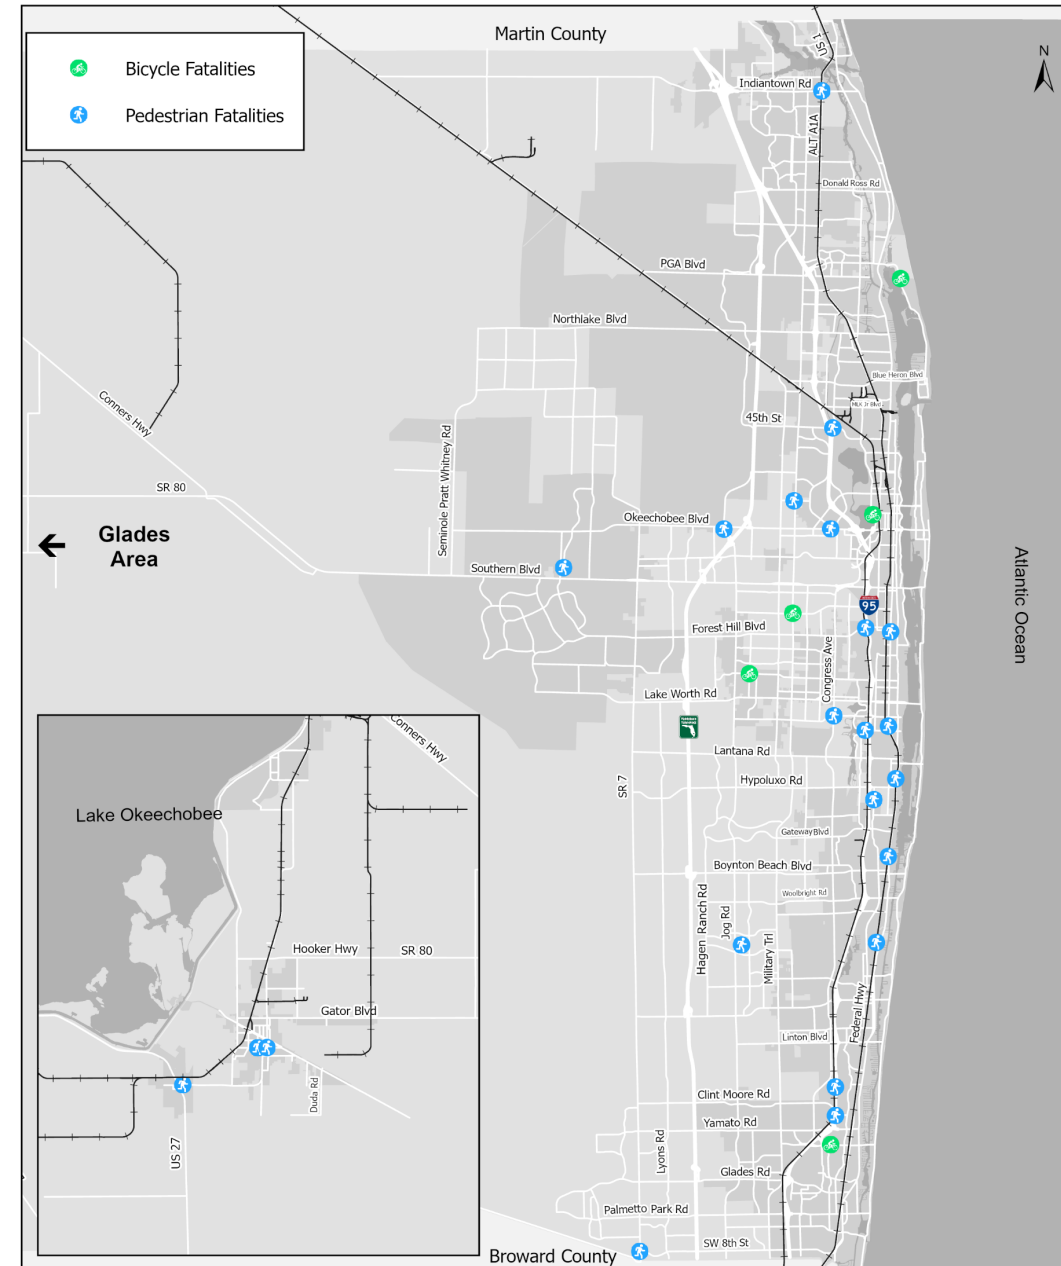

Why Quarterly Reviews of Ped/Bike Fatalities?

- Implements Vision Zero Action
- Ped/Bike crashes represent 29% of all traffic-related fatalities
- Quarterly review promotes discussion and urgency
- Accumulated data reveals trends and high-impact countermeasures

Summary (Jan 1-Mar 31)

- 29 fatalities
 - 5 fatal bicycle crashes
 - 24 fatal pedestrian crashes
- 3 crashes were alcohol involved
 - 4 crashes were caused by distracted driving
- 11 occurred at dark
 - 14 occurred during daytime

Next Steps

- Work with stakeholders to implement countermeasures
- Analyze Q1 crashes and draft summaries
- Incorporate feedback from committees and stakeholders
